AAR ENTERPRISE

Product line card

Engineering supplies from Gujarat to stockists, traders and manufacturers in the Gulf.

What we supply

Seven certified product lines from Western India manufacturing hubs, quoted against your specification with full material traceability and complete export paperwork.

Product line	Standards and types	Materials, ratings and size ranges	Documents available
Fasteners and stud bolts ITC-HS 7318	Fully threaded stud bolts, heavy hex bolts, socket screws, nuts and washers. ASTM A193, A194, A320; DIN 931, 933, 934; ISO 4014, 4017	Alloy steel: ASTM A193 B7 / B7M with A194 2H. Stainless: B8, B8M (SS304/316); Duplex 2205. Coatings: plain, black, zinc-plated, hot-dip galvanized (ASTM A153), PTFE Xylan 1070. Sizes: 1/2 inch to 3-1/2 inch (M12 to M64).	EN 10204 3.1 certificate with heat number, mechanical test reports, coating thickness reports.
Valves and flow control ITC-HS 8481	Gate valves (OS&Y), globe valves, swing check valves, dual-plate check valves, flanged ball valves. API 600, API 602, API 6D, API 594, ASME B16.34	Body: cast steel ASTM A216 WCB, forged steel ASTM A105, stainless CF8M / F316, ductile iron. Ratings: Class 150, 300, 600, 800, 1500. Sizes: 1/2 inch to 24 inch (DN 15 to DN 600). Testing: pressure tested to API 598.	EN 10204 3.1 certificates for body and bonnet, hydrostatic and seat pressure test reports.
Pipe fittings and flanges ITC-HS 7307	Forged steel flanges (WNRF, blind, slip-on, socket weld). Buttweld elbows, tees, reducers. High-pressure forged fittings. ASME B16.5, ASME B16.9, ASME B16.11, MSS SP-75	Materials: forged carbon steel ASTM A105, buttweld WPB, stainless F304/F316L, low-temp A350 LF2. Ratings: Class 150 to 1500; Sch 40 to Sch 160. Forged fittings: 3000# and 6000# socket weld and NPT threaded. Sizes: 1/2 inch to 24 inch.	EN 10204 3.1 MTC with stamped heat numbers, dimensional reports.
Automation & instrumentation ITC-HS 7304 / 8481 / 9032	Seamless stainless instrumentation tubing in straight lengths and coils. Double-ferrule compression fittings and manifolds. ASTM A269, ASTM A213, MSS SP-99; IEC 61131	Material: TP316 and TP316L bright annealed seamless. Sizes: 1/4 inch to 1 inch OD (6 mm to 25 mm OD). Fittings: forged ASTM A182 F316 (6000 PSI). 2/3/5-valve manifolds. Pressure transmitters and modular PLCs to approved makes.	EN 10204 3.1 certificate with heat number, flaring and flattening test reports, PMI and calibration records.
Low-voltage switchgear ITC-HS 8536 / 8537	Air circuit breakers, molded case circuit breakers, contactors, overload relays, modular MCBs. IEC 60947-2, IEC 60947-4-1, IEC 60898	ACBs: 630A to 4000A (fixed and drawout). MCCBs: 16A to 1250A (25kA to 70kA Icu). Contactors: 9A to 800A with bimetallic relays. Supplied against project-approved manufacturer lists (AML) where required.	Original manufacturer test certificates, datasheets, certificate of conformity.
Industrial bearings and units ITC-HS 8482 / 8483	Deep groove ball bearings, spherical roller bearings, cylindrical roller bearings, cast iron pillow blocks. ISO 15, ISO 355, DIN 620, ABMA	Material: 100Cr6 bearing steel, stainless 440C. Clearance: C3 internal radial clearance; normal (P0) and P6 precision classes. Housings: cast iron UCP and UCF units for rotating equipment and plant MRO.	Manufacturer certificate of conformity, batch inspection reports.
MRO consumables & supplies ITC-HS 8484 / 8204	Spiral wound metallic gaskets, ring joint gaskets (RTJ), non-asbestos sheets, industrial mechanics tools. ASME B16.20, ASME B16.21, DIN 7444, DIN 894	Spiral wound gaskets with SS316 winding, flexible graphite filler and carbon steel outer centering ring (Class 150 to 1500). CNAF jointing sheets. Heavy slogging spanners, slugging box wrenches.	Manufacturer test certificate, material compliance report.

How we source

We buy from manufacturers and authorized distributors in Gujarat's industrial belt. Before quoting, we check the standard, grade and make against your specification, then obtain the test certificate that goes with your batch.

Gujarat manufacturing hubs

- **Jamnagar:** turned brass components, ferrule fittings and precision hardware
- **Rajkot:** industrial valves, forged flanges, castings and dies
- **Ahmedabad:** high-tensile fasteners, bolts and structural bolting
- **Vadodara:** electrical switchgear, distribution gear and process assemblies
- **Surat and Hazira:** heavy petrochemical forgings and pipeline accessories

Approved manufacturer lists (AML)

For projects with strict approved vendor lists, tell us the make required (such as L&T, Schneider Electric, ABB, Siemens, Audco). We confirm availability, original manufacturer test certificates and compliance documents before you place a purchase order.

Lead times: Dispatch from supplier stock, confirmed at quotation.

AAR ENTERPRISE

Export and quality terms

Inspection, logistics corridors, customs duty rules and registration details.

How an order works

Step 1

Technical review

Submit your BOQ or drawing list by form, email or WhatsApp. Inquiries acknowledged within 4 business hours.

Step 2

Commercial quote

We confirm make, grade, standard and origin, then deliver an itemized quote with Incoterm and lead time in 2 to 4 business days.

Step 3

Inspection & docs

Goods checked against purchase order before dispatch. Access provided for nominated third-party inspectors (SGS, TÜV).

Step 4

Export dispatch

ISPM 15 export packing. Dispatched via direct sea sailing (3 to 4 days) or priority air cargo (24 to 48 hours).

Ports and shipping

We ship engineering supplies from Gujarat to ports across the Arabian Gulf. Dispatched as full containers (FCL), consolidated loads (LCL), or priority air cargo.

Destination port	Country	Indicative transit
Jebel Ali Port	UAE	3 to 4 days direct
Port of Sohar	Oman	3 to 4 days direct
King Abdulaziz Port, Dammam	Saudi Arabia	5 to 7 days
Hamad Port	Qatar	5 to 7 days
Shuwaikh Port	Kuwait	6 to 8 days

Dual-speed gateways: Direct sea sailings from Mundra Port (INMUN) and Hazira Port (INHZR). Priority air cargo (24 to 48 hours) via Ahmedabad Airport (AMD) and Mumbai (BOM) for emergency maintenance spares.

Export packaging standards

- ISPM 15 heat-treated and fumigated timber pallets with IPPC stamp
- VCI anti-rust moisture-barrier inner wrapping and HDPE woven outer covers
- Galvanized steel strapping with edge corner protectors
- Barcoded shipping marks with purchase order number, heat number and destination
- Photographs of packed goods before container sealing provided on request

Duty on Indian-origin goods

India's trade agreements with the UAE and Oman can remove the normal import duty on eligible goods. Eligibility depends on each product's HS code and origin rules, and requires a Certificate of Origin from an authorized agency. We confirm both before quoting. Saudi Arabia, Qatar, Kuwait and Bahrain have no such agreement with India, so normal GCC duty applies there.

Destination	Trade agreement	Customs duty position
UAE	India-UAE CEPA (in force since 1 May 2022)	Can be 0% on eligible goods with a Certificate of Origin. Without it, standard 5% applies.
Oman	India-Oman CEPA (in force since 1 June 2026)	Zero-duty access for engineering goods, subject to product origin rules.
Saudi Arabia, Qatar, Kuwait, Bahrain	None	Standard GCC customs duty applies (5% external tariff).

Quality inspection and company details

What we check before dispatch

- Goods checked against purchase order: item, quantity, size, grade and marking
- Heat numbers on test certificate verified against physical stamp on goods
- Third-party inspection: you can nominate any agency (SGS, TÜV, Bureau Veritas, Intertek) and we arrange access at the factory

Documents with shipments

Commercial invoice, packing list, bill of lading, Certificate of Origin through DGFT-designated agency, and manufacturer test certificates (`EN 10204 3.1`).
